

# Swiggy Essential Study Material

Product Based / Swiggy

## Study Hub Premium Placement Pack

This is original study material for preparation. It is not a copied official or proprietary company paper.

## Premium Study System

- Track: Swiggy.
- Pack type: NOTES / Study Material.
- Target outcome: selection-ready confidence for SDE / Software Engineer.
- Core preparation areas: DSA, CS fundamentals, OOP/LLD, HLD basics, behavioral stories, resume projects.
- Use this pack like a mini-book: concept, table, example, practice, analysis, revision.
- Every topic should produce proof: solved questions, mock score, mistake note, interview answer, or resume evidence.

## Output Quality Rules

- Read the concept in your own words, then solve without looking at notes.
- Convert every important idea into a comparison table, checklist, or one-line rule.
- Mark important traps as Common Mistake before the mock, not after losing marks.
- Keep a PYQ-style log: question pattern, topic, time taken, mistake reason, retest date.
- Use simple English; add Hindi/Hinglish meaning in brackets when it helps recall.

## Priority Matrix

| Area | Premium Standard | Proof Before Moving On |  
| DSA | Pattern, invariant, dry run, complexity | 2 solved problems per pattern without hints |  
| CS Core | OS, DBMS, CN, OOP with examples | Explain each topic in 60 seconds |  
| Project | Problem, architecture, your contribution, tradeoff | 2-minute story plus deep-dive answers |  
| Communication | Crisp intro, structured HR stories, calm tone | 5 recorded answers reviewed once |

## Exam Tip

- Interviewers reward clean reasoning more than memorized code. Say brute force, improve it, dry run, then discuss complexity.

## Common Mistake

- Jumping into code without constraints creates wrong edge cases. Ask size, duplicates, sorted/unordered, and expected output first.

## Essential Study Material

- Start with the syllabus pack, then solve the PYQ practice pack, then revise from this sheet.
- DSA focus: arrays, strings, hashing, binary search, recursion, trees, graphs, DP, heap, greedy.
- CS focus: OS process/thread/deadlock, DBMS keys/joins/indexes, CN layers/TCP/HTTP, OOP pillars.
- Interview focus: project story, strengths, failure, learning speed, teamwork, relocation/shift readiness.

## Last 48 Hours

- Revise formulas and mistake tracker.
- Re-read resume line by line.
- Practice intro and project explanation twice.

- Sleep properly before assessment/interview.

## Premium Study Material Structure

- Concept note: one paragraph in your own words.
- Formula/pattern note: exact rule, when to use, and when not to use.
- Worked example: one solved sample with each step visible.
- Interview angle: how the topic can be asked verbally.
- Revision hook: one mnemonic or one-line trigger.

## Memory Tricks

- CODER: Constraints, Options, Dry run, Edge cases, Runtime.
- STAR for HR: Situation, Task, Action, Result.
- PACT for projects: Problem, Architecture, Contribution, Tradeoff.

## One-Liners For Revision

- Accuracy grows from mistake analysis, not from collecting random PDFs.
- A topic is ready only when you can teach it without opening notes.
- A resume skill is safe only when you can answer two follow-up questions.

## Execution Dashboard

| Metric | Target | Review Frequency |  
| DSA Questions | 10-14 per week | every Sunday |  
| CS Core Notes | 4 topics per week | twice a week |  
| Mock Tests | 1-2 per week | same day analysis |  
| Interview Practice | 5 answers per week | record and review |

## Weekly Review Ritual

- Pick the top 5 mistakes, rewrite the correct rule, and solve one similar question.
- Remove one weak resume line or prepare one stronger project answer.
- Decide the next week from evidence, not mood.

## Final Self Audit

| Score | Meaning | Action |  
| 0-40 | reading stage | finish basics and easy questions |  
| 41-70 | practice stage | increase timed mocks and mistake review |  
| 71-85 | interview-ready | polish project, HR, and weak topics |  
| 86-100 | selection-ready | maintain revision and avoid overloading new material |

## Source Note

- This is original Study Hub premium material for learning and practice. It is not copied from official or proprietary company papers.
